I'M A **UX designer**, with mixed work experience in enterprise, data, IoT and industrial design.
Problem discoverer, by digging through the depth and breadth of complexity.
Seeker of simplicity, by pursuing elegant solutions for technical problems.

I'M GOOD AT Ideation, interactive prototypes, IA, research, visual, storytelling, being a team player.

EXPERIENCE	Lead UX Designer <i>Tableau Catalog, Data Management</i>	11/2020 - Present Seattle, WA
	UX lead and subject matter expert in data discovery, trust, lineage and governance for Tableau Data Management. Driver of UX debt backlog to improve product quality with joint efforts from PM and engineering partners.	
	Senior UX Designer <i>Tableau Prep, Data Management</i>	06/2018 - 11/2020 Seattle, WA
	Specialized in making data prepping workflow more interactive and visual. Delivered flow lineage, grouping and inserting steps, mini map and flow style revamp.	
	Product Designer <i>Level 11 Consulting</i>	10/2016 - 06/2018 Seattle, WA
	Worked with major hospitality brands to digitalize their customer experience. Responsible for research, user journey, and UX/UI design and testing for IoT projects.	
	Intern: Industrial + UI design <i>Bosch</i>	08/2014 - 04/2015 Palo Alto, CA
	Worked on smart home initiatives. Full ownership of ideation, industrial design, interface design and prototype testing for home security robot concepts.	
EDUCATION	Master of Human Computer Interaction + Design <i>University of Washington</i>	09/2015 - 09/2016 Seattle, WA
	Bachelor of Industrial and Product Design <i>The Ohio State University</i>	09/2011 - 07/2014 Columbus, Ohio
